8. Are any products manufactured for the following industry groups? Indicate percentage
  - a. Aviation
  - b. Defense
  - c. Computer
  - d. Motor vehicles
  - e. Watercraft
  - f. Nuclear
  - g. Petrochemical
  - h. Electronic
  - i. Utilities
  - j. Medical equipment
  - k. Industrial machinery
  - l. Agricultural machinery
9. Does applicant install, service or repair any of their products?
10. Describe any discontinued products, last year manufactured, sales
11. Are any of the following operations present? Indicate percentage
  - a. Precision machined parts manufacturing
  - b. Metal goods manufacturing-stamping
  - c. Die cast manufacturing
  - d. Foundry-forging
  - e. Instrument manufacturing
  - f. Machine/machinery parts manufacturing
  - g. Pattern manufacturing
  - h. Plastic injection molding
  - i. Electroplating
  - j. Metal treating
  - k. Welding
  - l. Machine shop jobbing
  - m. Machine shop-custom
  - n. Metal finishing
  - o. Assembly
  - p. Electronic manufacturing
  - q. Fabrication
  - r. Tool manufacturing
  - s. Other-specify
12. Is spray painting done? If yes:
  - a. Is a spray booth provided?
  - b. Amount of paints/solvents present in the building for spray application: \_\_\_\_\_ (gallons)

## Page 2

13. Use of magnesium, beryllium, titanium, lead, mercury or zirconium?
14. Are flammable liquids (flash point below 100 degrees F or below) stored or used? If yes:
  - a. Give quantity: \_\_\_\_\_ (gallons)
  - b. Flashpoint
  - c. Are safety cans and approved storage cabinets used for storage and handling?
15. For storage of combustible raw materials, combustible stock and combustible packaging materials:
  - a. Give total square feet used for combustible storage:
  - b. Does the height of combustible storage exceed twelve (12) feet?
